RAAGA SINDHU

San Francisco, CA | (857) 693-9649 | raagasindhu99@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Senior Data Analyst with 4+ years of experience building reporting models, KPI dashboards, and data pipelines to support business operations, forecasting, and strategic decision-making. Skilled in translating complex datasets into clear, actionable insights for cross-functional stakeholders. Proven track record of improving data quality, forecast accuracy, and operational efficiency across enterprise analytics, workforce intelligence, and business intelligence domains.

CORE COMPETENCIES

SQL & Relational Databases • Python & R • Data Modeling & Reporting • KPI Dashboard Development • Tableau & Power BI • Forecasting & Scenario Analysis • A/B Testing & Statistical Analysis • ETL/ELT Pipeline Development • Data Quality & Validation • Business Requirements Analysis • Stakeholder Communication • Process Automation • Requirements Gathering • Ad Hoc Analysis • Data Governance • Agile & Cross-functional Collaboration

EXPERIENCE

Western Governors University – Salt Lake City, UT **Mar 2025 – Jan 2026**

Senior Research Analyst

- Directed business operations analytics across 10M+ labor-market records using Python, SQL, and Snowflake - automating reporting workflows and delivering supply-demand insights to inform institutional strategy and investment decisions
- Architected a skill intelligence system using regression and clustering to analyze 23,000+ occupational skills, enabling leadership to identify high-demand capabilities 5X faster
- Developed statistical forecasting and regression models with advanced feature engineering and scenario analysis, achieving 90%+ accuracy in demand estimation; validated assumptions and built data quality checks before delivery
- Integrated and reconciled disparate external data sources (Lightcast, BLS, NCES) with institutional data, identifying upstream gaps - boosting analytics accuracy by 20% and reducing data preparation time by 40%
- Partnered with senior leaders to translate ambiguous business questions into clear analytic plans and measurable success metrics; independently represented the analytics team in cross-functional executive meetings

Northeastern University – Boston, MA **Jan 2024 - Aug 2024**

Machine Learning Analyst – NASA

- Constructed an end-to-end ML system for well-location prediction using geospatial and operational data, achieving 87% accuracy; validated models against alternative approaches and business-defined KPIs
- Engineered distributed ETL/ELT pipelines using Dask and Parquet, reducing processing time from 45 minutes to seconds; deployed outputs on Vertex AI with batch predictions stored in BigQuery
- Conducted A/B testing and model validation to measure performance gains, raising reliability by 20%
- Designed interactive Tableau dashboards translating geospatial model outputs into clear, actionable insights for stakeholders

Northeastern University – Boston, MA **Sep 2023 – Dec 2023**

Graduate Teaching Assistant – Data Visualization

- Led workshops on data wrangling, analysis, and visualization, improving student project quality by 15%
- Mentored 100+ students on Tableau, Power BI, and data storytelling workflows

Tata Consultancy Services – Nagpur, India **Jul 2021 - Aug 2022**

Data Analyst – Business Intelligence

- Built and maintained relational database queries and reporting models to resolve 95% of Salesforce data issues within SLA, ensuring accurate downstream reporting for leadership teams
- Automated Salesforce-JIRA workflows and reporting processes, reducing manual effort by 30% and strengthening demand planning and procurement efficiency
- Analyzed large operational datasets using SQL and Excel to support allocation and backlog reporting, boosting resource allocation efficiency by 20%

EDUCATION

Northeastern University - Boston, MA **Dec 2024**
Master of Science in Data Analytics Engineering

Sreenidhi Institute of Science and Technology - Hyderabad, India **May 2021**
Bachelor of Science in Electronics and Computer Engineering

TECHNICAL SKILLS

Programming & Libraries: Python (Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Plotly) • SQL • R
Analytics & Visualization: Tableau • Power BI • Looker • Looker Studio • Excel • KPI Dashboards • Flourish
Data Modeling & Quality: Relational Databases • Data Modeling • ETL/ELT Pipelines • Data Quality & Validation • CI/CD Workflows
Machine Learning & AI: Predictive Modeling • Regression & Classification • Forecasting • A/B Testing • Model Evaluation
Tools & Platforms: Snowflake • BigQuery • Dask • Airflow • Databricks • GitHub • JIRA • Salesforce • GCP • AWS
